*From the Desk...*

*"We cannot always build the future for our youth,  
but we can build our youth for the future."*

– Franklin D. Roosevelt

Youth represents the hope for the future. The nation, industry, businesses and family rely on the youth's opportunity for advancement in future. It is time for youngsters to grow and develop, to study and to shape their future. It is time to expand one's knowledge, appreciate one's family, and give back to society. The society depends on the vibrant changes and contributions made by the younger generations. No other element of society has the ideas, enthusiasm, and fearlessness that the youth have. The IT revolution led by youthful leaders brought about the societal developments of the twenty-first century. They can bring in a social revolution through their thoughts, courage, and adaptability. As a result, the youth can be the changemakers in all spheres of society.

Preparing the younger generation for the future is a greater social responsibility of the society's various institutions. Youth should pursue a road away from comfort, since we all know that success cannot be achieved in a pampered environment.

**They should be trained and well-equipped to take on key responsibilities such as-**

**Realization of the value of time** - Learn to be punctual and follow the deadlines set.

**Discipline in life** - Realize that without self-discipline one cannot achieve their goals.

**Character building** - A morally strong person could build a strong nation/society.

**Think before you act** - A non-impulsive youth can create a thoughtful society.

**Fearless and courageous** - To oppose injustice in society, one must be fearless and bold.

**Being goal oriented** - Goal-oriented youngsters can influence societal change by serving as role models.

**Swami Vivekananda** said, "My hope of the future lies in the youths of character, intelligent, renouncing all for the service of others, and obedient – good to themselves and the country at large".

Let us recognise, cherish, and celebrate the potential of the youth to be change makers of the society.

**Ms. Ananthalakshmi Mahadevan**

# A New Chapter of My Life

**"It's not the Destination but the Journey that counts."**

When I hear the words Dubai, Burj khalifa, and Desert Safari, it brings a huge smile to my face. It's the same for thousands of others too. I used to scream happily looking at aeroplanes flying up in the sky with mummy and now I'm pulling heavy luggages with one hand and carrying some bittersweet memories along with love and a hint of nervousness on the other hand. I'm flying in the same plane with huge expectations of achieving my dreams in my mind.

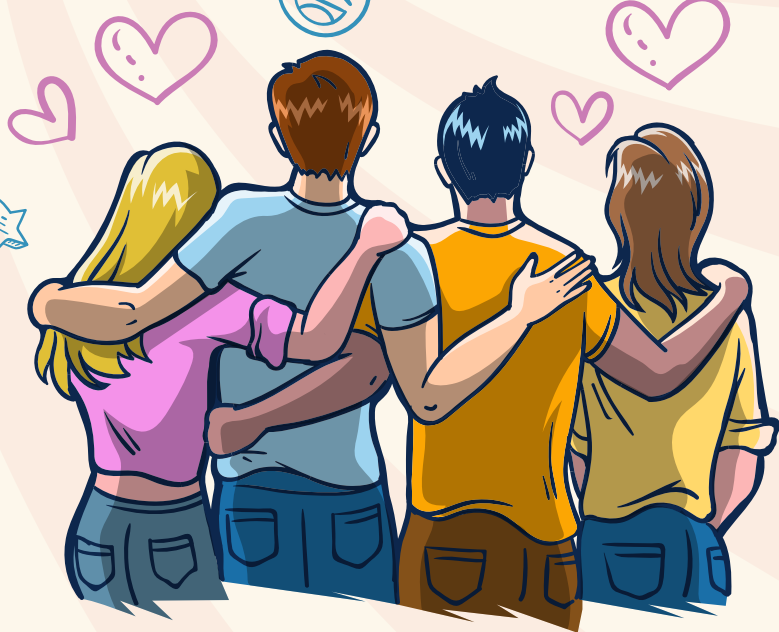

I realised how my life has changed the minute I boarded my flight which was far from my mother and motherland. Tears that I was hiding and trying my best not to spill in front of my family who were there for my farewell at the airport, were now streaming down my face. Leaving home, living in a strange town, creating a new world in a small rented apartment, not having a mother by my side who used to recognise my hidden sadness on my smiling face or daddy who knew my every trouble without me uttering a single word.

Recalling dearest friends from a distance, this truly makes you homesick. It's not that easy building a career in an unknown city. Anyway, there's a saying that happiness comes with a price-maybe this is the beginning of it. That's the life of youth

The journey of being a youth, as a student at Nest Academy with unknown faces from around the world starts here. Interacting with lecturers during induction classes to bonding with new friends of different nationalities and learning tiny but useful life hacks is a first step towards adjusting in my new home. This is not the end, there's more to go & as a student in NAME, I've lots of experiences to gain thanks to all the opportunities coming my way. Somehow it's better and worse at the same time as I have to face multiple obstacles in this journey, but I'll make sure to be able to chase my dreams and change those expectations to reality.

**Muna Tamang (Nepal)**  
Level-4 Business Management

## What kind of youth do we need to change the world?

**Do we need the one who: replaces effort with ease? Courage through laziness? Determination by heaviness? Commitment through fear of failure? The awakening of consciousness by the infantile spirit? Bravery through idleness?**

Nope!! I do not think so. Dear young people of the world, know that the earthworm has neither feet nor arms, but it fights to feed itself, as well as the birds which have no arms but manage to build their nests and feed themselves.

But we young humans are a perfect creation of God. Smarter than these living beings. My definition of the new youth is this - A SMART youth.

He who does not know that life is a struggle, and that one must struggle to succeed, so he misses his own dream, may contribute to realising the dream of others.

**You must have a \*SMART objective\* as mentioned below**

**SMART** SPECIFIC MEASURABLE REALISTIC TIMEBOUND

If you take ownership of these qualities by setting your own SMART goal, you can transform this world. Without intelligence, it is like making a journey without a goal and a precise destination. To progress and change this world, we need the awakening of consciousness to know what level we want to reach, in how long and with what regularity. So let's get involved by asking ourselves one question: "What is my SMART goal?"

CTH Level 4 - Hospitality Management

# Youth - forefront of global change and innovation

The world around us is in desperate need of change, and corruption is taking over society as a whole. There must be a change for the better; from hatred to compassion, from greed to generosity and from ignorance to knowledge.

The youth is the power to fuel this change. We constantly talk about change and try to make the world a better place by learning from the mistakes of past generations because that is our wisdom, this gives us the ability to look at the world from various perspectives and utilize our knowledge for the better.

The world's youth are never too young to lead. "Young people should be at the forefront of global change and innovation, empowered, they can be key agents for development and peace" as stated by Kofi Annan. Educated youth will decide what is acceptable and viable to society. They are beginning to play a prominent role in the decision-making process of social, economic and democratic development of their communities.

We, the young minds are the change makers for our community, our generation and the generations to come. The youth are capable and willing to continue making changes throughout their lives to keep education at the heart of social development and improve the quality of life for society.

**Anne Nimesha Johnpullay**  
ATHE Level 4 - Business Management

## Agents of change and progress

Young people are society's main. The power of youth is very important to the world, we can have the power to create change as long as we stand up and have a voice.

Youth is the hope of future generations. Today's youth can make changes through their involvement in social, political and global issues which is crucial for the foreseeable future. As a youth, a simple way of being involved, and being a 'changemaker' can involve something simple as implementing more eco-friendly alternatives to plastic in our day to day lives. An eco-friendly alternative to a plastic bottle can involve the use of reusable water bottles made of glass, stainless steel or ceramic. And therefore we can preserve our environment and reduce the amount of pollution being caused by single use plastic. The younger generation has the power to create peace and prosperity to make the world a sustainable and better place. Young people aren't just the 'future' they are the leaders of tomorrow.

**Mufaro Motsi**

CTH Level 4 - Hospitality Management with foundation  
CTH Level 3 - Foundation Diploma in Tourism & Hospitality

# The Powerful Youth

There are a lot of young people that are aging quickly yet we see so many aged people having hearts that are youthful and full of energy. This perfectly illustrates that “age is not important, it is just a number.” We can often see that our young generation is becoming lazy and running out of creativity and are being less productive, whilst old people are giving their best and are being more innovative. This is simply because our youth is completely blinded and influenced by the fake reality of social media. We see that they try to imitate “influencers” when they can widely influence the whole society by their power of education and brilliant ideas. When a young individual is able to work on any new and modern application, he is able to lead and learn any platform or topics given to them in a very short time, or can learn and adapt to any technology- it is obvious that they are not only capable to change the world for the best, but also to create a new world, in order to protect our earth from being consumed by technology and social media.

In a nutshell, the youth is responsible to fight against the overuse of technology that leads to laziness and a stressful life. They are also responsible to start building an incredible generation led by our young elite, to be the pioneers of our societies and not just followers of social media trends.

**Ms. Lara Bouty**  
Course Coordinator  
- Department of Academics

## “The power of youth is the Commonwealth for the entire world.”

The faces of young people are the faces of our past, our present and our future. No segment in society can match the power, idealism, enthusiasm and courage of young people.

Young people have the ideas, the creativity and great energy to shape a better world. They are full of hope and through innovation and imagination, they are problem solvers and have a great potential to generate a positive social change in the world. Today's young generation is more creative, hard working, and aware of their future. They are working diligently to achieve their goal and to contribute to their nation.

This world demands the qualities of youth not a time of life but a state of mind, a temper of the will, a quality of imagination, a predominance of courage over timidity, of the appetite for adventure of the life of ease.

Through active participation, young people are empowered to play a vital role in their own development as well as in that of their communities. Young people are a major human resource for development and key agents for social change, growth and technological innovation.

**Suhani Lokwani**  
Executive- Student Affairs department

## Youth is the catalyst of change

Youth of a country contributes to the most significant changes that happen in the society. The 3rd Prime Minister of India Mrs. Indira Gandhi said “Youth is the hope of the future of our country, young people have understood their responsibilities, the country will be safe in your hands.” The deep message that her statement gave was loud and clear to the world. The productivity and dedication clubbed with the innovative methods to accomplish the tasks is something that makes the youth different and a force to be reckoned with.

Great Power comes with great responsibility. The carefree attitude is sometimes very effective to deal with Gen- Z but the same can act as catalyst to irresponsible decisions, but the youth has shown its capability by laying foundation to the rise of career opportunities that did not exist a decade ago. From social media influencers to social media marketing firms, every start up has a young man responsible for its success. The creativity and the diversity that various fields have seen in their professions are the result of the ‘out of the box thinking’ that is the signature of young people around the world.

**Sayeda Iram Quadri**  
Executive- Student Services Department

# Youth of today, the leaders of tomorrow

Staying young is the dream of every person. Being young is fun. The youth is always full of hope, more curious, love taking risks and enjoy life better. As people often say, "Youth has no age." Their life is full of passion, and they dream to change the world. Youth is the best time of an individual's life. Youth have the ideas, energy, and creativity to shape the world and make it better place for all. Young people are full of hope that can bring a positive impact on society. They are the voice of the Nation.

The main challenge is not to empower them but to show the correct path to take. It is a critical age where everything around is uncertain. So, they require proper guidance and a sense of direction. Youth have the caliber to bring a major change on the society in every aspect- Social, Economic, Political, and Intellectual. So, it is a necessity to educate them with strong values and deep thoughts. They must be taught to uphold moral values.

Every country must provide different opportunities and arrange programmes to empower the Youth.

Studying abroad is another opportunity for the youth to grow as it opens doors to different opportunities. They gain not only academic enrichment but their exposure to various cultures and diversities will help them grow and nurture themselves in a better way.

We have to give them confidence that they can achieve anything they set their mind to. The world is adopting new technologies day by day and the youth will be a better fit into that world because their young and fresh minds will make them fast learners. They can be described as the fate changers of any Nation.

The youth of NEST Academy of Management Education are actively involved in organizing and carrying out events and other activities. Even with the academic responsibilities and job pressure, they are managing their time to coordinate as well as to participate in the college events. Their contribution towards the betterment of our college is remarkable and inevitable. My advice to them would be to nurture your youth with diligence, hard work and passion. Identify yourself, set your goals and work hard to achieve them. Get your dreams and their wings to fly!!

**Ms. Anjusree Krishnanunni**  
Faculty, Department of Academics

## The Face of Future Generation

The young generation occupies a special place in the social environment. It is very much part of the society. The young and rising generation are the representatives of our future. In the broadest sense- the future of any society depends on the practical and spiritual moulding of the youth.

All societies pay special attention to the youth as they have hopes for a brighter future. Today they might be our partners, tomorrow they will go on to become leaders. Our youth is certainly very energetic and enthusiastic. They have the ability to learn and adapt to the environment. Similarly, they are willing to learn and act on it as well to achieve their goals.

A proper guidance and good path will mould the youth for better development, a good leader will lead to a better future for the upcoming youth.

**Pratik Marathe**  
Senior Specialist  
- Student Affairs Department

# INTERNATIONAL NELSON MANDELA DAY

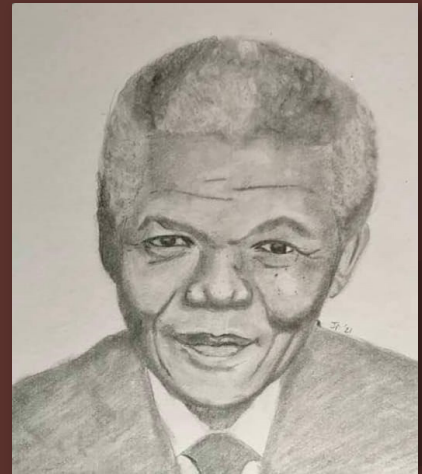

*Hello everyone I am Salmodin Ansari. I am very glad to have the golden opportunity to share an article about a great personality: Nelson Mandela honorable.*

Nelson Mandela born on 18 July 1918 in Umtata in South Africa was a social right activist politician and philanthropist who became South Africa's first Black president who served the nation from 1994 to 1999 AD.

For 20 years he directed a campaign of peaceful non violent defence against the South African Government and its racist policies. He fought for the sake of humanity and the rights of black people. Even though he suffered a lot while fighting for the rights of his people, he never took the wrong path because of his peace loving nature.

International Nelson Mandela day is an annual International Day in honour of Nelson Mandela which is celebrated each year on 18 July on Mandela's birthday; the day was officially declared by United Nations in November 2009 and the first UN Mandela day was commemorated on 18 July 2010.

The importance of this day is to promote global peace and celebrate the South African leader's Legacy. According to the Nelson Mandela Foundation, the annual event is meant to encourage citizens across the Globe to give back the way that Mandela has given throughout his lifetime. In this way we all can provide some significant outcome to the world and humanity. A piece of wisdom from Nelson Mandela's life that we all should definitely adopt in our life is that despite of having 1000 odd reasons to hate, we should choose to love and make peace with people and society, as the slogan of the International Nelson Mandela Day 2022 says "do what you can with all what you could." So everybody should make an effort to make this slogan a successful one."

**Salmodin Ansari**

**Azeddine Djenane**  
-Nelson Mandela portrait

**Education is the most powerful weapon which you can use to change the world.**

As said and quoted by Nelson Mandela, it is one of the most famous sayings on the value of education.

On the occasion of Nelson Mandela Day I would like to bring forward some contributions that were made by this great leader of all the times.

Nelson Mandela before becoming the President, was imprisoned for 27 long years because of standing strong for the human rights and fighting against the abuses committed by apartheid government who practiced segregation and discrimination in terms of race.

Apart from being the greatest philanthropist and human right activist, he was a great champion of Education and has also been awarded with the Nobel Peace Prize.

His passion for education was a result of his own experiences growing up, and later struggling against inequality. Throughout his life and even during his imprisonment, Mandela made sure he educated himself as he believed learning is an escape from his confines. Even a day before his trial at which he could have been served a death sentence, he was writing papers for his law degree. He even inspired his fellow prisoners to do the same.

He spent his entire life, not just educating himself, but also ensuring that his people and every child around the world is provided with the education. There are various institutes that were set up to help provide quality education for children in impoverished rural areas where infrastructure does not support it. One of the foundations of Mandela also partnered up with UNICEF to create Schools for Africa, a campaign to support education initiatives in 13 African countries. Since its commencement in 2005, Schools for Africa has helped over 30 million children receive a better education.

I would like to end my article with a very powerful quote by Sir Mandela that inspired me: **"A winner is a dreamer who never gives up."**

# Students Take On Events

The Nest Academy Football Tournament Season 2 took place on 21<sup>st</sup> July 2022. The tournament was held at UPRO Sports in Dubai. A total of six teams participated which were divided into 2 groups of 3 each. Mavericks, Dynamos and Badgers were in Group A. Vipers, Titans and Gladiators were in Group B. A game was played for ten and half minutes.

Mavericks led Group A followed by Dynamos after each team played against the other two. In Group B, Vipers grabbed the first position and Titans came up as the runners-up, which resulted in very exciting matches for the semifinals. Semifinal 1 was played between the Mavericks and Titans. After a hard-fought match by both the teams, Mavericks came out as winners with the final score being 3-2. The score of the second semifinal between Vipers and Dynamos stayed 0-0 until the end leading the match into sudden death penalties wherein both the teams got a one-one penalty to decide the winner. The first penalty kick taken by team Dynamos was saved by the goalkeeper of team Vipers. The penalty taker for team Vipers scored in his penalty kick leading the team to victory with the final score being 1-0. It was a very intriguing final between Vipers and Mavericks. After a strong start from both the teams, Vipers were able to break the deadlock and scored a goal. Later on, towards the end, they scored another goal to make the final score 2-0.

The tournament was followed up by a presentation ceremony. It started with recognizing the efforts put in by the organizing team to make this tournament a success. Jjingo Stephen from team Mavericks was given the best goalkeeper award. Joel John from Mavericks won the top goal scorer award. Aditya Patil from team Vipers won the MVP award. Team Mavericks collected the runners-up trophy and silver medals. It was followed by felicitating the team Vipers with the winner's trophy and gold medals. The tournament was a great success. It saw participation from students, teachers as well as the admin staff. There was a feeling of joy and achievement. Everyone was already excited and motivated for the season 3 of Nest Academy Football Tournament.

We had a certification ceremony on 18th July 2022 for Nest Students for English, Business Management, Hospitality Management and Event Management courses.

The certification ceremony was held at Nest academy Sports City Campus and it was organised by SCC members (Anish, Sudesh & Aditya and fully supported by Vishal). Mr. Gladwyn started the ceremony by giving a wonderful and cheerful speech to all the attendees. We also celebrated World Nelson Mandela day where students: Tareq and Salmodin gave a wonderful speech about how Mr Nelson Mandela changed the world. Then certificates were given to students on successfully completing their courses. Everyone was dressed up well and they were cheering for all the students who received their certificates. It was my pleasure to help in organising the event and watch students getting their certificates and cheering for their achievements.

**Sudesh Gautam**  
ATHE Level 4 - Events Management

Earlier I was facing trouble in communicating in English but with the guidance of Miss Lara now I feel confident in communicating. After getting my certificate I was feeling proud of myself for achieving a milestone. I am a proud student of Nest Academy! So, I will never stop thanking all my teachers, as well as the members of the administration.

In each institute you go to, certain values or forces reign between the different members who constitute it. But I can say that the people at Nest are visionary. Coordination between administration members in terms of simplicity includes fluid communication in which each member responds to the needs of the other for the proper functioning of the establishment, mutual assistance between teachers and students or students and students. Nest also does not hesitate to partner with other schools or institutes to make the training of students more effective and has several connections in all corners of the world. It supports foreign students despite the diversity in the language and nevertheless manages to create a climate of understanding.

**Fatou Seck**  
Certificate in General English +  
ATHE Level 4 - Computing

**Aditya Patil**  
ATHE Level 4 - Sports Management

I would love to talk about one of the events that we had at Nest Academy which is the Football Tournament that was held on the 21st July 2022. The tournament involved six different teams. My team was called Mavericks. I really liked my teammates even though we didn't train a lot but we really had a connection during the matches. In the first game we scored 16 goals and it really motivated us in winning the other matches. It wasn't that easy but we finally got the runner up position. In the tournament I played as a Goalkeeper for my team and I thank God for our performance at the tournament and the experience. I proudly won the tournament's best goalkeeper award and was delighted to receive the same.

Thank you very much.

**Jjingo Stephen**  
CTH Level 4 - Hospitality Management

Nest Academy has always been interested in several events such as tennis tournaments, FIFA22 Competition. The last event that was organised was the Season 2 of the Football Tournament.

Everything was prepared and organised well in advance by the Campus. From the first mail received to the last minute played, they had everything under control. However, I wanted to play so much that I took my equipment with me even without any registration. Fortunately, once I arrived on the campus, there was one missing place so I took the opportunity to register at last. We had more people than we thought would attend the tournament and something that amazed me was the presence of all teachers which was very encouraging. The Sports day will remain one of my best memories with Nest Academy. Even though we didn't win, we had fun and we really enjoyed the moment. I can only be grateful to Nest Academy and all the organisers for being able to execute everything correctly.

**Goel Minga Pongo**  
Certificate in General English

# Campus Placements 2022

Hi, My name is **Sanjiv Bhujel** and I am currently pursuing CTH Level 4 - Hospitality Management. I got placed in Adidas Emerging Market LLC as a Sales Promoter. Based on my deep understanding of the consumer and the authenticity of the Adidas brand, I push the boundaries of products, and services to the customer.

We do so according to my strategy, which allows us to fully capitalise on the acceleration of favorables. I am so happy to promote the Adidas brand with customers at all times.

I have a lot of experience in this field.

**Sanjiv Bhujel**  
CTH Level 4 - Hospitality Management

## Congratulations

to all the students on  
your placements

Hi my name is **Afkiah Binti Nizamudeen**. I have completed my level 5 and am currently pursuing Level 6 in Events Management. I am working as a HR manager trainee in Prime Healthcare group. I was approached by Prime Healthcare after my CV was given to them by my Academy, Nest Academy. Although it's an opposite field, it's not what I am skilled in, but my Academy had the understanding that all Management Studies have the same base which is why they said that with the basic knowledge I have in events I can progress in HR as well.

In the beginning the whole process was definitely something new and different and I was guided well by my reporting manager in understanding how the recruitment process in the Human Resource field is conducted. It's been an interesting experience. I really love my job so far and the whole experience is amazing because I am able to open myself more to new perspectives and approach people in a confident and a professional way.

I am definitely planning to do this job for a long time and I see that it's something that will give me a good experience and also give me a better position in future jobs as an HR. Human Resources is how we bring in the "potential candidates" that we need for companies. Someone who can make progress and also help the organisation expand to a next level. So far I am able to approach people without hesitation and with full confidence. I have learnt to be firm as a HR manager in the required areas of my department. So This is my experience in a new field of HR Management.

Thank You

**Afkiah Binti Nizamudeen**  
ATHE Level 4 Events Management

# FUN CORNER

MOVIE  
RECOMMENDATION

## Freedom Writers (2007)

In this movie, Hilary Swank plays a teacher in a racially divided school who offers her kids the voice they've always wanted. Swank portrays Erin Gruwell, a real-life teacher at Wilson High in Long Beach who motivated her students to fight the gangs that separated them and the educational system that ignored them. Gruwell imparts us all with a crucial lesson about tolerance and trust. This movie is based on the book The Freedom Writers Diary and features a cast of inexperienced performers who drew inspiration from their own experiences living on the streets.

MOVIE  
RECOMMENDATION

## Mandela: Long Walk To Freedom (2013)

Nelson Mandela is portrayed by Idris Elba in this biopic of the extraordinary man's life, which follows him from his early years as a herd boy in a rural area of South Africa called the Cape to his days as a lawyer and leader of the Apartheid resistance to his twenty-seven years spent in Robben Island prison before becoming the country's first democratically elected President.

## WHAT'S HAPPENING IN DUBAI! NEW ATTRACTIONS IN DUBAI

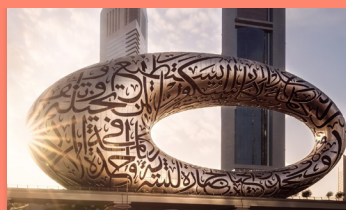

Dubai is undoubtedly a breathtaking city. What's more interesting about this place is that it comes up with new attractions frequently to keep its people engaged. Here are a few latest attractions that you must visit soon!

### Mohammed Bin Rashid Library

This one's for bookworms or people who simply take joy in skimming through the pages of our history. The Mohammed Bin Rashid Library is built along Dubai creek in the shape of a traditional Islamic Lectern. The

library also includes a bookstore, exhibition rooms and a cafe where you can spend your time in complete tranquility.

### Museum of the Future

As the name suggests, this museum will truly teleport you to the future. The museum is built with the help of state-of-the-art technology that gives a preview to the visitors about how the society will change and evolve in the foreseeable future.

Furthermore, it's also the home to some of the greatest ideas, prototypes and inventions around the globe.

### Pavilion at The Beach

Looking for a place for an unforgettable night out? Pavilion at the beach is the perfect place for you. Home to 6 most famous restaurants that specialize in not only indigenous food but cuisines across the world. Dine with picturesque beach views and experience the culture of the world right in your city.
