NEST Student Excellence Awards

NEST Academy of Management Education has always been an educational hub for students coming from various continents. As an educational institution we offer a variety of qualifications and courses which give diversity to the students who come and join with us. Quality education has always been our tagline and prime motive. Every student who join with us are special for us and so we make sure we can extend all our help for them to achieve their education in this best possible way and pass out in flying colors.

May 13th, 2023, a day to be carved in the history of NEST, another golden feather on the crown adoring our institution, when another batch of our students have successfully completed their courses and received their certificates. This is the second glamorous award ceremony that we have conducted and awarded certificates to all the students who achieved academic excellence. It is a moment of pride for everyone watching them grab those awards on stage.

Each student deserves credits and appreciation for the hardships they went through to achieve their certificates as well as excellence awards. Their life has never been simple – Trying to achieve a balance between work and studies, struggles to manage the payments on time, having to manage

their physical and mental health and different anxieties and being overwhelmed at times and the list goes on. Their efforts need to be cherished and highlighted.

Why students should be awarded?

Self-confidence - Rewarding students for their work directly increases their level of self-confidence. It makes them aware of their capabilities and makes them assertive enough to stay consistent until they reach the top.

Sense of accomplishment - A sense of relief that the assigned task was completed, and their hard work didn't go in vain gets inbuilt in the students. And with this thought, the mindset gets better and besides that, students also receive what they constantly should seek, acceptance!

Overwhelming respect - Rewarded students get genuine appreciation and respect for just doing their best. This feeling is priceless and to keep experiencing it they get a reason to always give their best in everything they do.

Inclination towards learning - Success when appreciated turns into motivation which brings along with its intensity and enthusiasm to learn new things because how much you learn and work determines how far you will go.

The support of the faculties in the students' achievements is integral. The knowledge they impart to the students, helping them to develop professional and personal skills and molding them and shaping them to move ahead in their lives was never an easy task but they did all of it with a smile. This day belongs to them as well. The immense support and prayers of the parents of our students cannot be overlooked. It is a dream come true day for them, when their little birds are out of their nests and flying high, ready to conquer the world. Special Thanks to the entire team who helped to make this event an extraordinary and glamorous one. And congratulations to all the students on your achievements.

*"I am a part of all that I have met;
Yet all experience is an arch wherethrough
Glams that untravelled world whose margin fades
For ever and forever when I move.*

Students experience at Award Ceremony

A Year of Triumph & Transformation : The Glorious Award Ceremony Event

There are significant moments that influence a person's personal path and attitude on life in the world of academics and extracurricular activities. I am filled with sentiments of happiness, appreciation, and success as I think back on the past year because it has been one of personal development, excellent recognition, and the opportunity to get a 50% scholarship. In this post, I discuss my feelings and experiences related as a brand ambassador, the award ceremony, my academic successes, and the significant influence they have had on my life.

The pivotal moment that set the stage for this transformative year was undoubtedly the award ceremony where I was officially recognized as a brand ambassador. The event was a celebration of excellence, filled with an atmosphere of excitement and anticipation. Standing alongside fellow awardees, I felt a powerful surge of pride, knowing that my hard work and dedication had led me to this remarkable moment. The applause and encouragement from my peers, mentors, and the audience resonated deeply within me, reaffirming my belief that diligence and perseverance yield the most meaningful rewards.

My journey as a brand ambassador was a journey of self-discovery and growth. It demanded that I step out of my comfort zone, become a vocal advocate for our brand, and lead by example. Throughout the year, I dedicated myself to the role, consistently engaging with professors, mentors, and peers. Being a brand ambassador also enabled me to cultivate essential skills, such as effective communication, leadership, and problem-solving. I found myself interacting with diverse communities and organizations, sharing the values and mission of our brand. My views were broadened by these conversations, and I had the honor of seeing the difference we were making in student lives.

Academic Excellence and Beyond: In addition to my role as a brand ambassador, I remained steadfast in my commitment to academic excellence. Not only did I maintain an exemplary academic record throughout the year, but I also received outstanding marks on my assignments, earning the highest distinction. This achievement is a testament to my dedication to excellence in every facet of my whole session.

My engagement with professors and peers, my relentless commitment to learning and growing, all played a significant role in achieving this milestone.

The recognition and scholarship I received are not just endpoints but rather stepping stones to new opportunities and greater challenges. I am immensely grateful for the unwavering support of my family, mentors, and peers who have been instrumental in my success.

I look ahead with great excitement, eager to embrace the opportunities that lie on the horizon. With determination, gratitude, and a commitment to staying engaged with my professors and peers, I am prepared to make an even greater difference as a brand ambassador and a scholar.

In closing, this year has been a chapter in my life that I will forever hold close to my heart. It has reaffirmed my belief that the reward for work well done is not just recognition, but the opportunity to continue striving for excellence.

An exciting event!

The award ceremony is one of the most exciting events that are held in various places like Universities, Companies, Communities, etcetera. I had an opportunity to attend the award ceremony of Nest Academy of Management. The ceremony was held in sports city Dubai at the Nest Campus and was attended by various students and faculty from different departments of the institute. It was a colorful ceremony with decorations and amazing lighting. I had interactions with various people which

was quite interesting. During the award ceremony, a number of rewards like certificates and scholarships were given out to various students which was an emotional situation for students. Some of them had tears of joy while receiving the recognition which was amazing to experience. There was a lot to learn from this award ceremony like working hard pays off, always keeping on track and finally engaging yourself in various activities when you have an opportunity.

My Journey to Excellence Award at Nest Academy of Management

EDUCATION

INTRODUCTION

Achieving excellence is a pursuit that requires dedication, determination, and a passion for learning. As I stand here today, I am humbled and proud to share my journey to receiving the Student Excellence Award from NEST

ACADEMY OF MANAGEMENT EDUCATION.

This accolade represents not only personal achievement but also the invaluable support and opportunities that this institution has provided. Join me as I reflect on the path that led to this moment of recognition and the lessons I've learned along the way.

THE BEGINNING OF THE JOURNEY

My academic journey began like that of many others, with a mix of excitement and uncertainty. Enrolling in NEST ACADEMY was a significant step towards my dreams, and I was eager to explore the world of knowledge that awaited. Little did I know that this journey would be filled with transformative experiences and personal growth.

THE IMPORTANCE OF CURIOSITY

One of the key lessons I've learned is the importance of curiosity. Whether it was in the classroom, the library, or during discussions with professors and peers, my curiosity became the compass that guided me. Asking questions, seeking understanding, and going beyond the surface of knowledge opened doors to new perspectives and ideas.

BALANCING ACADEMICS AND BEYOND

The journey to excellence also taught me the importance of balance. While academics were a central part of my university experience, I realized that personal growth extended beyond the classroom. Involvement in extracurricular activities,

community service, and internships broadened my horizons and enhanced my skill set. Mentorship and Support None of this would have been possible without the guidance and support of mentors and professors who believed in my potential. Their encouragement, advice, and constructive feedback were invaluable in shaping my academic and personal development. I am profoundly grateful for their influence on my journey.

CHALLENGES AND RESILIENCE

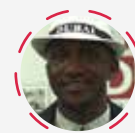

Challenges are an integral part of any journey, and my path to excellence was no exception. There were moments of setbacks, self-doubt, and uncertainty. However, I learned that resilience is the key to overcoming these obstacles. Every setback became an opportunity to grow stronger and more determined.

THE IMPACT OF EXCELLENCE

Receiving the Student Excellence Award is not just a personal achievement; it is a testament to the power of education and the opportunities it provides. My hope is that this recognition will inspire others to embark on their own journeys of excellence, knowing that with dedication and passion, they too can achieve their goals.

CONCLUSION

Reflecting on the Student Excellence Award from NEST ACADEMY OF MANAGEMENT EDUCATION, I emphasize the continuous pursuit of excellence, lifelong learning, courage, and support. I am excited to continue and thank NEST ACADEMY for being the catalyst for this remarkable journey.

CHARLES KEVIN EPO BANG
Certificate in General English

Through my experience.

Hello!! I'm Hervee Emmanuella Lago, student of Business Management Level 5 at Nest Academy of Management Education.

I received my certificate (level 4) in May 2023, stepping onto the stage at my Academy's certification awards ceremony was a moment of pride and achievement. This event marked the culmination of my hard work, dedication, and a commitment to learning. Through the journey of earning my certification, I discovered that education is not just about gaining knowledge from books, but also about personal growth, determination, and resilience.

Receiving a scholarship as part of the ceremony was a validation of my efforts. It reinforced the idea that dedication pays off and that every challenge I tackled was a stepping stone toward success. This scholarship not only provided financial support but also served as a reminder that the pursuit of excellence is a continuous endeavor.

The ceremony was a celebration of learning and a gathering of like-minded individuals who share a passion for education. It was an opportunity to connect with fellow students, teachers, and parents who have been part of this transformative journey. The sense of community and shared accomplishment made the event even more memorable.

In conclusion, the certification awards ceremony was a significant milestone that emphasized the importance of hard work, perseverance, and the joy of learning. The scholarship I received added a layer of recognition to my achievements and motivated me to continue striving for excellence in all my future endeavors.

Hervee Emmanuella Lago,
ATHE Level 5 Business Management

All great achievements require time.

Achievement is the result of Hard work, Effort, and Dedication. This year 2022-2023 was fruitful with some major achievements. First of all, I got an opportunity to do a research paper and got the second position for the "Best Qualitative Research Paper" award with a cash prize. After that, I got an opportunity to do my internship in one of the growing hospitality organizations that is Sunset Hospitality Group at L'AMO Bistro Del Mare an up-scale luxury seafood Italian Restaurant. I successfully completed my internship and got a full-time job offer after my internship. I gave my best at work. I complete all my responsibilities, always positive and punctual at work. I got an Award for "Employee of the Month of April". After that, I successfully completed my Professional Diploma in International Tourism and Hospitality Management, Level 6 from Nest Academy of Management Education. I was awarded the prestigious award of "NEST STUDENT OF THE YEAR 2022-23" along with 100% Scholarship for MBA in Tourism and Hospitality Management at Britt's Imperial University College. These are some of the major achievements which will help me step forward in my future.

I want to end my story with a quote from Robert F. Kennedy, *"Only those who dare to fail greatly can ever achieve greatly."*

Celebrations at Award ceremony!

The ceremony was very nice. It was a day to remember and cherish a lifetime for all who attended, and the venue was perfect and cosy for the event. I was surrounded by my teachers and friends, who were all so proud of me. I felt very happy and grateful to have completed my 1st year. The ceremony itself was a blend of anticipation and nostalgia, with proud families and friends gathered to witness the culmination of years of hard work. Hearing my name called out and feeling the weight of the certificate in my hands was surreal. It represented not only the academic achievement but also the personal growth and perseverance that went into earning it. It was a gratifying moment, one that I would forever carry as a reminder of dedication and the power of education.

Articles from Faculties

“You Reap What You Sow”

They say what ever you reap in the fertile soil, you sow. Indeed, you can't expect a fruitful tree if you reap a stone. Similarly, if you work hard and study well, accomplish all your duties, definitely you will sow success, highest rating and you will be well appreciated. However, do not expect being awarded, appreciated or even promoted in your life if you barely make an effort in whatever you do. In other word, the more you give, the better and more you receive. As an English faculty for more than 11 years, and as I have taught, assisted and led an indefinite number of students to a better future, and I was always motivating them at first, and powering their capacity that already have it inside them but not all of them know how to use it for their good, whether because they are indecisive and careless to achieve their success, or because they don't know how to find this boosting power that is inside them and deprive them to value their capacity and ability to be among the most successful individuals in the society. For why teachers are here, the first and most divine mission that we, as faculties, should have is to dig deeply inside each and every student until we reach their treasure needed to be used in acquisition and learning, as the farmer prepare the soil to be fertile before receiving the seed, in order to accomplish great tasks and fine quality of learners. What makes us the future makers and this title specifically is my slogan in my career and life. I have been teaching at Nest Academy for three years, and I have taught hundreds of students if not thousands, and I am proud of each one of them because they were a part of my life that will be graved in my heart and mind forever. I have been

beside them with improving their language level in order to achieve their academics or to travel abroad for a better life. Some of them were extremely careless and not serious at all, and consequently, we couldn't see their success in their academics. However, most of them succeeded, learned the language perfectly and have found a great job or even could transfer to other countries. To be honest, every time that the academy celebrate the awards for the best students and the graduation, I feel so touched and extremely proud of all my students, and when they sow awards for their excellent work, I feel as if I have won the lottery and I am the richest person ever, because reaching also my goal to always push my students very high in their life is my mission and my treasure that motivates me more to continue reaping in my field and obviously sowing more successful future man and women.

Finally, I would like to thank first Nest Academy and all the mangers and administrative teams for supporting the students in order to open them wide opportunities. I would also like to thank all our students without exception, and particularly the best one who were awarded, for trusting us and allowing us to change their life for the better. I would recommend you to continue being among the best and the elite, to always excel and be brilliant, and always be proud of yourself as we are very proud of you.

Ms. Lara Bouty
Manager, Academic: Language School.

Every year, Nest Academy of Management education comes alive with excitement as it prepares for the highly anticipated event: the Student Award Ceremony. This annual celebration is a time to honor and recognize the hard work, dedication, and achievements of students who have excelled in various fields.

The Student Award Ceremony is not just about handing out certificates and scholarship; it is a momentous occasion that brings together students, teachers, parents, and the entire academy community. It serves as a reminder of the importance of education and the incredible potential within each student.

During the ceremony, students are acknowledged for their academic accomplishments, leadership skills, extracurricular achievements, and community contributions. This recognition not only boosts their confidence but also inspires others to strive for excellence.

The event is a testament to the commitment of both students and educators to create a culture of learning and personal growth. It reminds us that with dedication and hard work, we can all achieve greatness. So, as the curtains rise on the Student Award Ceremony, let us applaud the stars of tomorrow and celebrate their journey towards a brighter future.

Nest Academy Honors Student Achievement at the Awards Ceremony

Nest Academy recently held its Awards event to celebrate its exceptional students, which was a beautiful celebration of academic excellence and dedication. The occasion was a testimonial to the students' devotion and hard work as they excelled in their studies and are now ready to face the world.

The atmosphere was charged with excitement as students and educators gathered to recognize the accomplishments of these bright young minds. The joy on the faces of the award recipients was infectious, and the sense of accomplishment radiated throughout the venue.

Nest Academy believes in nurturing talent and empowering the next generation, and the scholarships awarded to these students reflect that commitment. The scholarships will undoubtedly provide these students with the support they need to continue their educational journeys and achieve their dreams.

As the applause and cheers filled the room, it was clear that Nest Academy is not just an institution but a family that celebrates the achievements of its members. With these scholarships and awards, the academy is paving the way for a brighter and more promising future for its students, instilling in them the belief that they can achieve anything they set their minds to. The world is undoubtedly in for something special as these talented individuals continue to grow and thrive. Congratulations to all the awardees, and may their journey to success be filled with continued accomplishments and happiness.

Award Ceremony - Significant Milestone

We celebrated a significant milestone in the journey of our future leaders. This day does not only mark the accomplishment of hard work but it also reveals the commitment made by the students and of course their teachers. This is the occasion to acknowledge their hard work, dedication and potential that each of these students, teachers embody.

I would like to tell our students to never give up although the road might be bumpy at times, just believe in yourself! Leadership is a journey of growth and self-discovery.

Finally, I would like to show my appreciation also to our whole academic team for guiding, inspiring and uplifting our students to create a better future.

Rafay Gailani

I have recently been enrolled in the Hospitality program at Nest and I must say that the student/teacher relationship is incredible. The way the faculty show their help and support by giving us countless advice and opportunities for our careers has been phenomenal. It has only been a month of my enrollment, however, I can assure you that this is the right university for students specifically wanting to learn Hospitality and gain job opportunities within their field.

Pritam Gupta

Being a part of NEST Academy of Management Dubai is boosting my career and I'm experiencing a good study environment with well experienced lecturers.

The placement department at my college has proven to be a beacon of guidance and support for students seeking a successful transition from academia to the professional world. Their personalized approach, strong industry connections, and commitment to student success make them an invaluable asset.

Emmanuella Lago

I am truly impressed by the faculty's support at Nest They're always available to clarify doubts and offer guidance on assignments. Their expertise in explaining complex concepts makes learning easier, and their constructive feedback has helped me improve. Their encouragement and approachability create a positive learning environment, fostering both individual growth and collaborative teamwork. I'm grateful for their dedication to our success.

Snehith Epari

NEST Academy has been a truly exceptional experience for me. The educational program is engaging and the teachers are exceptionally qualified and committed to assisting understudies with accomplishing their best. The school gives a great extracurricular exercises that permit understudies to investigate their inclinations and foster new abilities. I've made a lot of good friends at NEST Academy, which has a strong sense of community.

Soniya BK

The faculty at Nest is excellent and rich in their subject knowledge. They freely interact with us and willingly clarify our doubts. They also guide us with career options.

Movie Recommendation

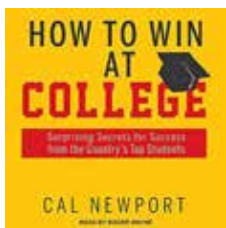

Good Will Hunting

A janitor at M.I.T. is discovered to be a mathematical genius after solving a graduate-level equation nobody else has been able to. His brilliant mind comes with a troubled personality and he's unwillingly paired with a therapist as part of a probation agreement after getting arrested. While the math professor who wrangled the probation agreement only sees him as a project, the therapist sees the whole person and pushes him to have the courage to create his own path.

This heartwarming movie delivers important messages about being true to yourself, the importance of solid friendships, and using your gifts even in the face of fear and self-doubt. This remains among the best films for students!
